```csharp
using System;
using System.Collections.Generic;
using System.Linq;
using System.Text;
namespace Grade
{
    class Program
    {
        static void Main(string[] args)
        {
            int marks;

            System.Console.Write("Enter the Marks : ");
            marks = System.Convert.ToInt16(System.Console.ReadLine());

            if (marks >= 90)
            {
                System.Console.Write("A Grade");
            }
            else if (marks >= 70)
            {
                System.Console.Write("B Grade");
            }
            else if (marks >= 50)
            {
                System.Console.Write("C Grade");
            }
            else if (marks >= 30)
            {
                System.Console.Write("D Grade");
            }
            else
            {
                System.Console.Write("Fail");
            }

            System.Console.Read();
        }
    }
}
```
